Education

Aug 2024 – Jun 2026 — **MSc in Finance, BI Norwegian Business School**
Asset Management (A), Financial Risk Management (B), Applied Valuation (B), Strategic Asset Allocation (A), International Finance (B). **Master's thesis (A):** *"How does financial literacy – or lack thereof – influence risk-taking behaviour, overconfidence and portfolio construction among Norwegian investors?"* Mediation analysis of 750 Norwegian retail investors. More knowledge leads to more risk-taking but with better calibration, and the least knowledgeable systematically overestimate their own competence.

Summer 2025 — **Python Fundamentals for Machine Learning (summer course), Aarhus University (Denmark)**
Intensive summer course in Python for data analysis and machine learning. Completed with top grade (12/A).

Aug 2021 – Jun 2024 — **BSc in Finance, BI Norwegian Business School**
Behavioural Finance (A), The Firm (A), Digital Tools & Financial Analysis (A), Financial Econometrics (B), Options and Futures (B).

Experience

Sep 2026 – present — **Client Services Manager, Euronext Securities Oslo (Verdipapirsentralen ASA)**
Client services at the Norwegian central securities depository: registration, settlement and investor services for the Norwegian securities market.

Jun 2025 — **Event Assistant, Medvind Eventbyrå (IGF 2025)**
- Coordinated logistics for the UN's largest conference in Norway; responsible for the exhibition hall with 70+ exhibitors including Google, Meta, TikTok and GlobalConnect.

Nov 2019 – Sep 2025 — **Shift Manager (from Jan 2021), Meny Lambertseter (NG Meny Øst AS)**
- Led shifts of up to 20 employees; structured task delegation and decision-making under pressure.
- Commercial and operational responsibility: cost control, cash reconciliation, loss prevention, training, conflict resolution and security routines.
- Daily contact with regular customers over nearly six years; my reference letter highlights a "trust-building manner and ability to create a sense of security" and describes me as "reliable and responsible".

Projects

evers.no/formuessamtalen — **The Wealth Conversation**
Interactive demo of the advisory conversation in wealth management: suitability assessment, an open allocation matrix, account choice between custody account, ASK and a holding company, and a calibration test built on my master's thesis.

evers.no/renteriket — **Renteriket, a personal finance game**
Teaches personal finance from zero, with every Norwegian rate held in one sourced block. 1062 automated checks; the maths checks use different formulas than the game itself, and found among other things that one mission was mathematically unsolvable.

evers.no/personligokonomi — **Personlig økonomi (personal finance)**
Five learning modules: compound interest, opportunity cost, inflation vs. house prices, present value and bond prices when rates change. Built with React and Recharts.

Key Qualifications

Languages & passport — Norwegian (native), English (fluent), French (intermediate). Norwegian and Belgian (EU).

Certifications — Bloomberg certifications BMC, BFF and ESG.

Tools — Python (Pandas, Matplotlib), Excel, financial modelling, econometrics.

Extracurricular — Ambassador for Bergensbaneløpet 2025/26 (BI vs. NHH), named Ambassador of the Year.
