Education

Aug 2024 – Jun 2026	MSc in Finance, BI Norwegian Business School Asset Management (A), Financial Risk Management (B), Applied Valuation (B), Strategic Asset Allocation (A), International Finance (B). Master's thesis: <i>"How does financial literacy – or lack thereof – influence risk-taking behaviour, overconfidence and portfolio construction among Norwegian investors?"</i> Mediation analysis of 750 Norwegian retail investors. More knowledge leads to more risk-taking but with better calibration, and the least knowledgeable systematically overestimate their own competence.
Summer 2025	Python Fundamentals for Machine Learning (summer course), Aarhus University (Denmark) Intensive summer course in Python for data analysis and machine learning. Completed with top grade (12/A).
Aug 2021 – Jun 2024	BSc in Finance, BI Norwegian Business School Behavioural Finance (A), The Firm (A), Digital Tools & Financial Analysis (A), Financial Econometrics (B), Options and Futures (B).

Experience

Jun 2025	Event Assistant, Medvind Eventbyrå (IGF 2025) - Coordinated logistics for the UN's largest conference in Norway; responsible for the exhibition hall with 70+ exhibitors including Google, Meta, TikTok and GlobalConnect. - Handled logistics, setup and accreditation in line with a tight production schedule and the UN's strict security requirements.
Nov 2019 – Sep 2025	Shift Manager (from Jan 2021), Meny Lambertseter (NG Meny Øst AS) - Led shifts of up to 20 employees; structured task delegation and decision-making under pressure. - Commercial and operational responsibility: cost control, cash reconciliation, loss prevention, training, conflict resolution and security routines. - Daily contact with regular customers over nearly six years; my reference letter highlights a "trust-building manner and ability to create a sense of security" and describes me as "reliable and responsible".

Projects

evers.no/formuessamtalen	The Wealth Conversation Interactive demo of the advisory conversation in wealth management: suitability assessment, an open allocation matrix, account choice between custody account, ASK and a holding company, and a calibration test built on my master's thesis.
evers.no/renteriket	Renteriket, a personal finance game Teaches personal finance from zero, with every Norwegian rate held in one sourced block. 838 automated checks recompute the answers using different formulas than the game itself, and found among other things that one mission was mathematically unsolvable.
evers.no/osebx	OSEBX Dashboard Weekly autonomous analysis of the Oslo Stock Exchange: sector rotation, breadth measures and an LLM-generated narrative, on a Python pipeline I built myself.

Key Qualifications

Languages & passport	Norwegian (native), English (fluent), French (intermediate). Norwegian and Belgian (EU).
Certifications	Bloomberg certifications BMC, BFF and ESG.
Tools	Python (Pandas, Matplotlib), Excel, financial modelling, econometrics.
Extracurricular	Ambassador for Bergensbaneløpet 2025/26 (BI vs. NHH), named Ambassador of the Year.
